Secondary School Certificate

GPA - 3.83 | Out of 5.0

Sreenagar Pilot High School
Sreenagar, Munshiganj

Career Objectives

As a passionate front-end developer with a solid foundation in computer science, I am eager to contribute to dynamic teams and innovative projects. My goal is to leverage my skills in modern web technologies and problem-solving to create engaging, user-friendly applications. I thrive in collaborative environments and am committed to continuous learning and growth. Driven by a keen interest in Full-Stack Development and SEO, I aim to apply my technical expertise and dedication to deliver impactful solutions while maintaining a strong commitment to integrity and teamwork.

Work experience

Internship   **May 2024 - July 2024**
Web Development
Battery Low Interactive LTD.
House - 8, Road - 2 Baridhara J Block, Dhaka 1212, Bangladesh

Gained hands-on experience with modern tools and technologies such as React.js, node.js, API, etc. that enhance the creation of responsive and dynamic websites. I also developed valuable teamwork and collaboration skills while working in a professional office environment, providing me with practical insights into real-world web development and effective team dynamics.

Projects

- **QuickResQ** - **An Emergency Support System**
  QuickResQ is an emergency support system that helps users ask for help in any emergency moment from their nearest emergency service providers. QuickResQ has a website and also an Android app, using HTML5, CSS3, JavaScript, PHP, MySQL, XML, and Java.

- **CENSUS Website**
  Developed a secure, login-based CENSUS website for Bangladesh citizens to register demographic information using their NID or Birth certificate. Used HTML5, CSS3, JavaScript, PHP, and MySQL to develop this project.

- **Travel Guider**
  Developed a website that helps travelers find amazing places, residences, and so on features will be added to this project. Used HTML5, Bootstrap, JavaScript, PHP, and MySQL to develop this project.

- **Blood Donation Application**
  A solution to streamline blood donation procedures, improving communication between blood banks, hospitals, and donors. Developed using Java and XML for efficient donation management.

- **SHOPCART** - **An E-Commerce website using React.js and APIs**
  Developed a user-friendly e-commerce website using React and APIs for seamless product management and user interactions.

- **VaxConnect Bangladesh**
  Developed a comprehensive front-end application for managing all types of vaccine information and registrations in one platform using React and React-Bootstrap.

- **CR7 Fan Page** Built a responsive website using HTML, CSS, and JavaScript about Cristiano Ronaldo's details like achievements.

- **HavenNest** - **Property Management Website**
  HavenNest is a responsive property management website designed to connect users with luxurious homes, including villas, apartments, and penthouses. Developed using HTML5, CSS3, Bootstrap5, and JavaScript.

Skills

HTML

CSS

Bootstrap

JavaScript

React

Figma

Tailwind CSS

Git

PHP

MySQL

Web Research

Virtual Assistance

Collaboration & teamwork

Languages

Bangladesh — Native

English — B1

Hobbies

- Football
- Cricket
- Travelling

- **RideReserve**
  Developed a comprehensive front-end application for booking bus tickets using React.js, Node.js, Tailwind CSS, and React-Router-DOM.

- **Track Your Expenses**
  Created this web app using React.js and Reactstrap. It lets users easily manage their finances, with data securely stored on their own local server.

- I have worked on many projects which you can see on my **GitHub** profile.

Interested Fields

- **Full-Stack Web Development**
  Fascinated by Full-stack web development because it offers a holistic understanding of web applications, allowing for seamless interfaces and efficient server-side operations, while continuously learning and applying diverse skills in responsive layouts and database management.

- **Search Engine Optimization**
  SEO fascinates me because it combines creativity with data to boost a website's visibility and attract more visitors. The process of adapting to search engine changes and fine-tuning strategies keeps things exciting. My goal is always to achieve real results that help businesses grow.

- **Data Science**
  I am drawn to data science because it transforms raw data into valuable insights that drive decisions. I love how machine learning and analysis solve complex problems and uncover patterns. This field blends my passion for coding with a curiosity for finding trends and making predictions, making it both exciting and impactful.

Awards

- **Certificate of Excellence Award**
  Champion of Ethics Case Fair, Fall 2023 organized by the Center of Excellence for Teaching And Learning (CETL).
  Our poster for the Ethics Case Fair Fall 2023 is titled - "Fires of Fabrication: Deepfakes are Cooking Up Trouble".

Personal Information

Date of Birth	: 16-10-1999
Blood Group	: O+
Nationality	: Bangladeshi
